Tainted food ain't it great  
There it sits upon the plate  
Insect fragments everywhere  
And a piece of someone's hair

This is what they call a stew  
You have to fight the urge to spew  
On a scale of one to ten  
Lets just say its minus friend

Just a side of rotten meat  
And inside a special treat  
Irradiate to kill the germs  
Then afterwards they add the worms

Tainted meal oh so grand  
On the label there's no brand  
Grab a fork and scoop it up  
Spoiled milk inside the cup  
And it hits you oh so quick  
Suddenly you're getting sick  
Empty cupboard our last meal  
After this we'll never heal  
Grab a fork and dig right in  
It's the worst its ever been

Expiration date last year  
Botulism drawing near  
Plus it smells like chlorine bleach  
Product safety out of reach

Tainted meal oh so grand  
On the label there's no brand  
Grab a fork and scoop it up  
Spoiled milk inside the cup  
And it hits you oh so quick  
Suddenly you're getting sick
