It's All A Game
Ready For The World
It feels so right when you holding someone real tight
But you never know if you be holding that someone
forever more.

Why is it so
You will never go
And say it isn't true
That I won't still love you
And say I needed Love

It's all a game when you love someone who in the pain
You're never new to the game because it always ends
up being the same.

Why is it so
That You will never go
And say it isn't true
That I won't still love you baby
And say I needed Love
Do you
ooooh

It feels so right when you holding me so very tight yea
But you never know if you be holding me forever more

Why is it so
That you will never go away
And tell me is it true
That I won't still love you baby
And say I needed love
Do you you

OH OH OH
