ALL THESE THINGS

All the things i like to be  
Make me scared, 'cause they're  
not clear to me  
I stayed up all night trying to figure  
out  
What i need and what i can live without  
I don't know,  
if i'll ever be  
All the things that i wanna be  
I'm twenty  
four, i could have done more  
But there's still so much to  
explore

All the things i like to be  
Still appear to be a  
mystery  
Staying up all night, helped me to find  
The  
answer to what i was looking for  
And i know, i'll never  
be  
All the things that i wanna be  
Time's running out,  
passing me by  
With every day part of me dies

All the things, i like to be  
Make me scared, 'cause  
they're not clear to me  
I stayed up all night trying to  
figure out  
What i need and what i can live without  
I don't  
know, if i'll ever be  
All the things that i wanna be  
I'm  
twenty four, i could have done more  
But there's still so  
much to explore
