"Head Falls To Shoulder"

Visit "[Head Falls To Shoulder](#)" on MotoLyrics.com

Then in the air, consume despair
Then in the air, consume alcohol
Then at the gate, customs wonder
Why in this state, someone comes here
Nothing Felt
Anyone

Then on the road, drive wrong way
Then to a clerk, bread knife paid
To city park, bleed through the sleeve
Then on park bench, rain drenched as a shield

New Night
Sullen eyes sink, face to ash
As the head falls to shoulder
As his head falls to shoulder
As her head falls to shoulder
Anyone for Anyone
Last new night falls to shoulder
