"Lasting Real"

See it glow into myself
See it now
It looks like it's gone
"Everyday it's all the same" i said
Because it's not the one, it's two

Is it gross to assume i will be tall
But i'm going deaf
and i must have misunderstood
It looks to me like she might lie to impress me
But she doesn't care and she lies about her past

I can see it now.....

Yesterday i said i didn't care
But i've had enough
and i've had all of my fun
Because it's not the one, it's two
Because it's not the one, that i want

I can see it now.....
