"Give Me The News"

Visit "[Give Me The News](#)" on MotoLyrics.com

Seems a little cool to me
I prefer the warm
This chilly air I feel is
Way below the norm

My tears are raining down
Clouding my views
That's the weather
C'mon give me the news.

Our Interstate
Won't change until
Both directions
Stop standing still

Fork in the road ahead
It's time to choose
That's the traffic
C'mon give me the news

If it's the long leash
Well, then, pull it in
Just don't scare me
With no bulletin.

No one can win
The way we play
For every game at home
There's one away

We're into overtime
Someone might lose
That's the sports
C'mon give me the news

If it's the long leash
Well, then, pull it in
Just don't scare me
With no bulletin.

Is this bond broken

Is my stock down
There's speculation
All over town

Maybe a rumor
Another ruse
I gave you the business
C'mon give me the news

If it's the long leash
Well, then, pull it in
Just don't scare me
With no bulletin.

I need an anchor
I need a host
Signals that reach me
From coast to coast

I'm on remote
Don't leave me confused
What's your retort?
The long and short
Come on report
And give me the news
