She's a Hollywood dream  
Straight from an A-list movie scene  
Livin' the camera life  
Oh, she is the queen of the rodeo drive

I am a middle west boy  
Straight from a small town with a voice  
Screaming "I want her with me"  
She could be the hills to my beverly, my beverly

She's a beautiful ray, a socialite  
A paparazzi flash on a Friday night  
She's got me talking kinda fast like I'm on the fly  
I gotta get her here, oh-oh oh-oh

On the front of magazines the world over  
I'm looking at her pretty face at every turn  
Lovin' the way she drives a range rover  
She's independent, oh-oh oh-oh

Ce-ele-ebrity, come and be with me  
Ce-ele-ebrity, come and be with me  
Cuz  
I really think you might like my style  
Take a break, get away for a while  
Don't got a lot but I got a smile  
I'd like to show you

She's a Hollywood dream  
Straight from an A-list movie scene  
Livin' the camera life  
Oh, she is the queen of the rodeo drive

I am a middle west boy  
Straight from a small town with a voice  
Screaming "I want her with me"  
She could be the hills to my beverly, my beverly

What do I gotta do to be her everything?  
What do I gotta do to make her notice me?  
Everybody knows her name

I wanna be worth more than fame  
I'm staring out into the crowd  
But I'm without the one thing that I need right now  
So come be my good feeling  
Ohh...

Ce-ele-ebritY, come and be with me  
Ce-ele-ebritY, come and be with me  
Cuz  
I really think you might like my style  
Take a break, get away for a while  
D-d-don't know you but I know you drive me wild

I've got designer dreams  
She's got designer shades  
Can't look away from her magnetic gaze  
Killing me slowly when  
Her lips are talking  
When I untie my t-t-tongue I swear I'll say

Pretty girl, pretty girl  
Would you trade L.A. to come into my world?  
Couldn't ask for nothing more  
City girl, tell me could you fall in love with a...

Middle west boy  
Straight from a small town with a voice  
Screaming "I want her with me"  
She could be the hills to my beverly, my beverly

She's a Hollywood dream  
My beverly

My beverly
