I've been patiently waiting  
I can't think of the words to say  
And it's getting frustrating  
This is honestly killing me  
I've been meaning to ask you  
But my awkward tongue gets in the way  
There's a thousand things I want to say

So break some pieces off of me  
I can only wait until the end  
Go break some pieces off of me  
Baby, this is just the beginning

I know you know just what to say  
And I'm yours for the taking  
Conversation could make my day  
But the one complication is your tongue just makes no  
sense to me  
Oh, when we get to the bottom of this

So break some pieces off of me  
I can only wait until the end  
Go break some pieces off of me  
Baby, this is just the beginning

You know I'll wait forever for this  
Trust me

So break some pieces off of me  
Baby, this is just the beginning

We burn ourselves alive!

So break some pieces off of me  
I can only wait until when we get to the bottom of this  
Go break some pieces off for me  
Baby, this is just the beginning  
Baby, this is just the beginning
