Snowbird

Tying ribbons up in your hair
Wishing that I could be there
Stay awake, stay aware

Cause I'll try
To stay awake throughout the night
And I will chase the sun in flight
Till I'm there, I'll be there

Ooh, winter came, I was gone
Flight departures, times we've lost
Saw you standing in the snow
Such a vibrant glow
Oh, did you ever think I'd come home
I couldn't spend this night alone
Cause you're number one on my wish list, baby
Oh, in a little bit I'll be there
Like a star shot through the air
To make a checkmark on my wish list, baby

Airplane

Could you take me far away
To the snow enveloped plains
Cause she's there, cause she's there

I fly

In a coast to coast charade
But if only for one day
I'll be there, I'll be there

Ooh, winter came, I was gone
Flight departures, times we've lost
Saw you standing in the snow
Such a vibrant glow

Oh, did you ever think I'd come home
I couldn't spend this night alone
Cause you're number one on my wish list, baby
Oh, in a little bit I'll be there
Like a star shot through the air

To make a checkmark on my wish list, baby

Ooh, I promise I'll be there
Cause you're the number one on my wish list, baby

Ooh, I promise I'll be there
Cause you're the number one on my wish list, baby

I've got time, twenty four hours
Waiting for the go ahead from the tower
If I had just one wish
Get me home for Christmas

I've got time, twenty four hours
Waiting for the go ahead from the tower
If I had just one wish
Get me home for Christmas

Oh, did you ever think I'd come home
I couldn't spend this night alone
Cause you're number one on my wish list, baby
Oh, in a little bit I'll be there
Like a star shot through the air
To make a checkmark on my wish list, baby

Ooh, I promise I'll be there
Cause you're the number one on my wish list, baby

Ooh, I promise I'll be there
Cause you're the number one on my wish list, baby

Oh, did you ever think I'd come home
I couldn't spend this night alone
Cause you're number one on my wish list, baby
Oh, in a little bit I'll be there
Like a star shot through the air
To make a checkmark on my wish list, baby
