Inquisition says we'll burn in hell

Damnation for the infidel

Gonna start and spread some heresy?

Ya' gotta expect a certain misery

They're gonna make it really interesting

They're gonna go and teach democracy

Whatever God that could exterminate

Whatever God that can't tolerate

In dog we trust [4x]

In dog we trust

In God you trust

In God you trust

In God you lust

God damn you

God damn me

God damn who?
