So you think that you know
All those things unsaid
So you try to make true
All the fears in your head

Never trusting your instincts
Standing on the edge of dissolution
Let it all out
Screaming at the top of a raging heart

Disclosure
Disclosure of my mind

So you think you know
I hate it when you try to tell me
You think that you know
Please, don't fuckin try to tell me
I scrub it harder
And I've let myself apart
I scrub it harder still
You find it so much brighter
You think you know - how it feels the cold
Don't try to tell me how I fuckin feel

Never trusting your instincts
Standing on the edge of dissolution
Let it all out
Screaming at the top of a raging heart

Disclosure
Disclosure of my mind

I will lose you, I will lose you, I will lose you...

Screaming at the top of a raging heart
Don't try to tell me how I fuckin feel
