"The Enemy"

Visit "[The Enemy](#)" on MotoLyrics.com

You'll never take me
You'll never break me
You'll never take me
War
No friendship left to tie or bind
The black clouds over summer skies
How can you fucking live with yourself
Overdose in your lies will be your end
I don't care what you say
You mean nothing to me
Please God will you save me
From this hate inside
I feel it start to change me
I don't feel alive
Hurt you close
You realize I'm the window in your suicide
How can you breath or live with yourself
Overdose in your lies will be your end
I don't care what you say
You mean nothing to me
Please God will you save me
From this hate inside
I feel it start to change me
I don't feel alive
I don't feel alive, there's nothing left inside
Please God will you save me
I don't feel alive
I see right through you (x4)
Please God will you save me
From this hate inside
I feel it start to change me
I don't feel alive
I don't feel alive, there's nothing left inside
Please God will you save me
I don't feel alive
