Heartstrung, headstrung
Out on this fall, gone gone cruise on
Forgive all wrongs

Need this small song
For us move on
To love with one
Hear soft and headstrung

Keeping light into
Where I do
To fight you

Eyes weak go through all I right this
Let it blame for psyche wrongs
How long, how long

Keeping light into
Where I do
To fight you

Is this where I want to be
Burning up in carousel
A great idea
In... mean lasting us to feed me
Beat me

Heartstrung, headstrung
Heartstrung, headstrung
