chorus :

we're braces of life now!
flying heavens above
we have no fear of the light now
we're forever in love

seems like celebrations
voices lifted up in grace
feels like jubilation
haven't dreamed of better days

we've got stars in our eyes
and the world in our hands
and it feels like we're coming home

chorus x2

the story is begining
let it spark the word to flame
like the midnight somewhere burning
as we shine again

we've got time on our side
as we dance through the dawn
and it feels like we're coming home

chorus x2

and it feels like we're coming home
and it feels like we're coming home

yeh, yeh, yeh, yeh, yeh

forever
for always
together
forever in love

chorus x4
