I push so hard they hardly push back
Instinct has led me to a man trap
Divorce my conscience to be undone
Throw down my ladder so you can get up
It's automatic

I just can't help it
Part dopey dog and one part steam train

On the back foot I see that look again
I push so hard they hardly push back
And you say, alright
It's automatic

I just can't help it
I tell you what to do

I'll do the work for you
I'll tell you what to do
It's automatic

I just can't help it
It's automatic
I just can't help this place I'm in
