You always seem to think the worst  
That everyone is out to screw your plans  
Go on and help yourself first  
I've had about as much as I can stand

Now I'm sayin' you sold out  
Yeah I'm sayin' you sold out

What made you so cynical?  
Help me get my head into  
The way the world has weakened you  
If you want

I think you're being paranoid  
You really know just how to fuck what's good  
I hope you listen to my voice  
Don't wanna be misunderstood

Now I'm sayin' you sold out  
Yeah I'm sayin'

What made you so cynical?  
Help me get my head into  
The way the world has weakened you  
If you want, if you want

What made you so cynical?  
Help me get my head into  
The way the world has weakened you  
If you want  
What made you so cynical?  
Help me get my head into  
The way the world has weakened you  
If you want, if you want
