If it wasn't for the bad, there wouldn't be no good

I want you to honk your horn if you're just glad to be leaving

(Yes, sir)

Me, I'm big Haystak it's just a pleasure to be here

A lil' jam I wrote for people that mean a lot to me

And it goes a lil' something like this

I dedicate this to true friends, ones that's gonna be there

Whether you're in a bubble eyed Benz or the Federal Penn

Ones that will show you love when your surrounded by hate

Won't say nothing behind your back they can't say to your face

The ones that will come to your grave and pour beer on your plot

Cry at your funeral whether you like it or not

The ones that'll put money in the mail

The ones that will go check on the kids and Gail while you in jail

Now that's a real mother, tssh

The ones you can turn to when you need 'em the most

Tell you to stay focused and keep your enemies close

The ones that ain't worried about what they can get out
of ya

Be there with 20 people talking 'bout finna kick that,
sshh

The ones that watch suckers come and go 'cuz they
was really friends

Prove they loyalty to ya time and time again

The ones that know you and what your all about

The ones your life wouldn't be the same with out them
damn

Cool peoples and you'll always be, cool with me

Cool peoples and you'll always be, ever so cool

(Everyone can relate to this one here)

Leaving you was the hardest thing I ever had to do

I don't know if it was your mouth

Or my attitude that destroyed our group

Went out dancing or just walking in circles

Screaming at each other till we both turned purple

Heard you got a new man and got a new plan

I wish you the best you know what I'm saying

Regardless you'll be

(Cool with me)

From time to time I think about ya till the hours pass

Reminisce on how you was shaped like a hour glass

Come to think of it we ain't even spoke in months

Hit me up lil momma we can, pshhh

'Cuz you cool peoples and you'll always be, cool with
me

Cool peoples and you'll always be, ever so cool

The ones that you lost along the way but will find they way back

The ones that had love for J before he was Haystak

The ones that will watch your back when you drunk in the club

Come to your girls and get you to keep you from, shhh

The ones that will always be behind you

When you get that big head they going to be there to remind you

Where you came from and who you really is

The ones that's been there since y'all was little kids

The ones that loved you told you can do anything you wanted to

What ever you decide to do give 'em everything you got boo

People you can turn to in your time of need

Holler at your home boy, the hustle he might front you some weed

The people that who will be there in jail to see your ass

Put they fist to the glass

(One love, homie)

The ones that will be down to the very end

Y'all ain't related by blood but they just like ken

Cool peoples and you'll always be, cool with me

Cool peoples and you'll always be, ever so cool
