dem a go weep and mourn (weep and mourn)
the sinners a go weep and mourn
oooh !

there will be a weeping & mourning, oh no
and a gnashing of teeth, oh, oh
there will be a weeping & wailing,
oh babylon, you must get defeat, hmm

because in every little action, there is a reaction
no hiding place, for the wicked to escape
babylon your kingdom shall vanish,
and all your people shall perish
you can't blow breath but you want to take life,
you want to turn the day into night

but there will be a weeping & mourning, oh lord
and a gnashing of teeth, oh, oh
there will be a weeping & wailing,
oh babylon, you must get defeat, hmm

but too late, too late, shall be their cry
remember ??? when you are crucified
???
no i'm not telling no lie

but there will be a weeping & mourning, oh no
and a gnashing of teeth, oh, oh, hey
there will be a weeping & wailing,
oh babylon, you must get defeat, hmm

i say, you must give an account for what you have done
and if you're guilty, say the fire a go burn
you can't escape, no you can't run
you a go melt like ???

but there will be a weeping & mourning, oh no
and a gnashing of teeth, oh, oh, hey, hey
there will be a weeping & wailing,
oh babylon, you must get defeat, hmm, yeah, hey

you a go weep & mourn, (weep & mourn)
the sinners a go weep & mourn (yeah-ah)
dem a go weep & mourn (weep & mourn), oh-oh-oh,
hey, hey

because in every little action, there is a reaction
no hiding place, for the wicked to escape
babylon your kingdom shall vanish,
and all your people shall perish
you can't blow breath but you want to take life,
you want to turn the day into night

but there will be a weeping and mourning...
