I get desperate
I get restless
Like
Wire
Silly silly
Resistance no more than
Faith hope and charity

I get desperate
I get reckless
Like winter
Blind fury
I get courage
I get breathless
In the sunset rain

I change colour
I'm not faithless
Like science
It's a secret
Lost children
Slow dancing
Taking chances just the same

I get frightened
By emotion
Small wonder
I quiver
The rhythm of kisses
Then silence once again

And when the passion
Feels like pain
Tears that burn you
Like the rain
I feel that my heart
Is breaking now
My resistance blown away
Like a magnet i will stay
I am caught in the flame
