

## Real Life "Longest Day"

Without a word  
Without a sound  
The rainbow falls to the ground  
In black and white  
The colours fade  
And I can see  
I can see your face

Just say you'll try  
Don't say goodbye  
Stay here

Until the longest day  
Until heaven falls  
Won't you stay  
Won't you stay  
For all we know  
This time is all  
Won't you stay  
Won't you stay  
Until the longest day

Just one more day  
Just another night  
If you can see  
Then read my mind  
It's in black and white  
So should I stay  
Will I find my own way

Like a memory  
I will be waiting here
