Guys, what are we doing  
Can't live this way forever  
Gotta make ourselves some money  
Or be thrown out with the bathwater

My sister and my brother  
Look to me for answers  
And our fathers and our mothers  
Wanna know they raised us right  
Wanna know they raised us right

Isn't that the good life is a simple one  
Sittin' in the yard watchin' the leaves go by  
Reading good books and playing songs  
Watching the wind blow through your front yard  
Don't follow your head  
Follow your heart

While you're sitting all alone in your room on your bed  
And your windows are open but you won't go out, no  
Heaven go easy on me  
While you're sitting all alone in your room on your bed  
And your windows are open but you won't go out, no  
Heaven go easy on me

It's damn good to have met you  
I hope that you stay  
We're well on our way [repeat]

All these things are rushing by [repeat]

All things must end darling [repeat]

Heaven go easy on me
