Fire you induce it  
Like a fuse in my heart  
Inside flames consume me  
Tearing through every part

Burn me up and set me free tonight  
'Til there's nothing left to identify  
Will I make it out of here alive  
I can't fight the fire

Fight flames of fury  
To get to me tonight  
'Cause I need rescuing  
Break on through me to the inside

Burn me up and set me free tonight  
'Til there's nothing left to identify  
Will I make it out of here alive  
I can't fight the fire
