Feel the beat, feel the beat and move
Feel the bass and you gonna feel the groove
Move it move it, you're gonna feel high
Get on the floor and you're gonna be a star
Tell your heart, take a start
.... gonna get to make a new part
Let's fight for tonight, now and ever
Come on everybody let's come together

Move me, move me stranger
Move me faster
Let me feel the trance oh
Move me, move me stranger
Move my body
SOS I'm falling
Ooooh uuh
Ooooh uuh

Jump to the beat, jump, jump and dance,
Feel the rhythm, and you're gonna be in trance
Pump it, pump it and you will look right
Freak out now let's have party tonight
Shake around, hear the sound
I will show you what you're gonna find
Let's fight for tonight, now and ever
Come on everybody let's come together

Move me stranger, move my body
Can't you feel the trance
Move me stranger, move my body
Can't you see I'm falling

Trance me, trance me, trance me, trance me...

Move me, move me, move me, move me
Can't you see me falling
Move me, move me, move me, move me
