In this night my heart is breakin'  
In the dark the sadness is stayin'  
In my heart the memories achin'  
But in my soul the anger is winning.

(Refrain:)

But how, I can't say goodbye to you...

(Chorus:)

Coz every night I'm thinkin' that you're thinking me too.  
And every time I look at you.  
I can't find the words to say goodbye...

It seems like that my world is always crashing through.  
And every time I look at you.  
I can't find the words to say goodbye... (Goodbye...)

All this time we we're pretending.  
It's only you that I was missing.  
And the one that I was thinking,  
Cause loving you is all I'm doing.

(Refrain:)

And now, I'm just letting go of you...

(Repeat Chorus)

(Instrumental)

(Repeat Refrain and the 1st half of Chorus)

(Repeat Chorus)

Goodbye...
