

## Reamonn "Angels Fly"

Visit "[Angels Fly](#)" on [MotoLyrics.com](https://MotoLyrics.com)

She saw the world through her smile  
She held your hand, you knew it'd be all right  
She spoke of places she'd never been  
Now is the time, she'd say, to live the dream

And she told us how she could fly  
And she said, no need for goodbyes  
For we'd see her there in the skies  
Where angels fly, angels fly

She stayed a while that summers day  
Spoke through a smile of how she'd go away  
I saw in her eyes her pain  
She took my hand and said, it'd be okay

Now she's soaring up through the sky  
And she takes us all in her flight  
And she told us the reasons why  
Angels fly, angels fly

Some summer days, I can see her smile  
In so many ways she's still alive  
And the love that she gave, I keep down inside  
I'm keeping it safe 'til I learn to fly

And she's soaring up through the sky  
And she takes us all in her flight  
And I feel she is still alive  
Where angels fly, angels fly

And she told us how she could fly  
And she said, no need for goodbyes  
For we'd see her there in the sky  
Where angels fly, angels fly  
Angels fly, my sweet angel flies
