Got a letter from my sister  
I realized how much I missed her  
Tells me that she's far away  
Oh, so very far away

Tells me that she is in love  
It's all she's thinking of  
Tells me that a toughless time  
Playing games with her mind

She says she'll never be the same  
She's playing a big girls game  
And the world is spinning round  
Throws her hands up and falls to the ground

Tells me that she is in love  
It's all she's thinking of  
Tells me that a toughless time  
Playing games with her mind

She says she'll never be the same  
She's playing a big girls game  
And the world is spinning round  
Throws her hands up and falls to the ground
