I know someday I'll discover One who will be my true  
lover I'll tell her right from the start If you want my  
heart You know what you got to do You got to work,  
work, work baby You got to work, work, work baby If I'm  
a hard lovin' daddy You can be tall, short or fatty You  
can be any ol' size As long as you're wise And you know  
what you gotta do If I maintain my employment You  
should supply the enjoyment Long as I stay on the job  
Your heart ought to throb You know what you gotta do If  
you want in on my money Tell me I'm fine, call me
