I have come to greet the King  
I have come to give myself in total abandonment  
I have come to lay down all that holds me back from  
You  
I have come to lay down all that holds You back from  
me

So come in, come in, King of glory  
Come in, come in, we welcome You this day

I have come to greet the King  
I have come to give myself in total abandonment  
I have come to lay down all that holds me back from  
You  
I have come to lay down all that holds You back from  
me

So come in, come in, King of glory  
Come in, come in, we welcome You this day  
Come in, come in, King of glory  
Come in, come in, we welcome You this day

We come, we come, we come, to greet the King [x4]

So come in, come in, King of glory  
Come in, come in, we welcome You, we welcome You  
Come in, come in, King of glory  
Come in, come in, we welcome You, we welcome You
