Hands On You
(H. McKenzie)
DECOY (2012)

Love love love...

If my life was an R movie then this scene would play
Out
Over and over and over with no shame
I'd be far away and floating, a bubble for a brain
With and extraordinary feeling in my veins

I wandered the clubs and I gave it a try
But money and music could not satisfy
The only thing that can fill this void... is you boy

Love, let me show you how I really feel
All I've gotta do is, get my hands on you
Love, my heart aches to take you to the truth
And all I wanna do is, put my hands on you

I could stare at you for hours, listen intently as you
Breath
Over and over and over for you I'd bleed
Oh this isn't a crush or a teenage dream
I'll commit be your everything
The only girl you'll ever need

I wandered the clubs and I gave it a try
Money and music could not satisfy
The only thing that can fill this void... is you boy

Am I trying to hard, could this all just fall apart?
I want to let it go but I can't turn away
Your voice follows me everywhere
Reminding me that nothing is fair
I wanna let it go but I can't look away
