"Love Dares You"

Love are you waiting
Or did time run out
Gave all I had got nothing left
Roam through the streets
Searching every land
And lie with no regrets

For one night you held my hand
Love dared me to feel the most
Will I ever know your mind again
Or are you gone with the ghost?

September leaves remind me of you
I can still feel your heat

It's lit so intensely
That I forget to breath
I love, now I believe

For one night you held my hand
Love dared me to feel the most
Will I ever know you mind again
Or are you gone with the ghost
Are you gone with the ghost

Gone with ghost...

For one night you held my hand I dared to feel the
most
Will I ever know your mind again or are you gone?
Gone with the ghost
