This is your home and always will be  
You take it with you, when you go  
But we'll be here  
And you belong  
It's important that you know

Know, we love you  
Know, you're precious  
One day soon you'll understand  
Not today and not tomorrow  
But you'll know  
You'll know in time  
You'll understand

Go with our blessing, hurry back  
There'll be such joy when you return  
Yes we'll be here  
We'll always love you  
That's all you need to know

And yes, we love you  
Hold the feeling  
When you have the words to say  
You'll understand, before tomorrow  
That this has to be the way  
You'll understand
