I don't live this life for me
In Orstralia land so free
Everybody lazin' in the sun
Nobody cares, so let's have fun

Got no problems, got no wars
And you don't need your brain no more

Orstralia goes in once again
We must remember all our friends
And to make sure all the way
That we support the C.I.A.

Got no problems, got no wars
And you don't need your brain no more

hang your wahin' on the line
It's OK, the weather's fine
Hubby goes out, don't commit no crime
He always gets to work on time

Got no problems, got no wars
And you don't need your brain no more
... In Orstralia
