When I've gone too far  
When I've had enough  
When I'm losin' ground  
Feelin' out of touch  
I don't run and hide  
I just look inside  
For a simple piece of mind  
Like a neighborhood  
On a city street  
I know the path  
It knows my feet  
And when I feel afraid  
Feel like checkin' out  
You stand up and take a bow

You shine when others need you  
You speak and I believe you  
I know the light, it guides you  
I'll join the line that walks behind you

*[Chorus]*

You shine, you shine  
Like a window to your heart I see  
All the possibilities  
You shine, you shine  
And everyday's another opportunity  
To shine

The way you see the world  
The way it sees you back  
You're the photographer  
You take the photograph

If you don't like the way  
The way it looks at you  
You've got all the power to choose  
Turn right, turn left, turn the other way  
Make it light, make it dark, make it go away  
I love the way you write the script to your own life  
You're the star, you're on tonight

And when I feel unnoticed

Just two steps back from hopeless  
You turn my world around with a single smile  
That's who you are, that's who you are

*[Chorus]*

I know the light, the light that guides  
I'll join the line that walks behind you  
You shine, you shine  
In my life I know you shine  
You shine  
Like a window to your heart I see  
All the possibilities  
You shine  
And everyday's another opportunity  
To shine
