As the dragon cuts the waves  
Strong winds take us east  
Like the wings of a beast

Salt on my lips again  
I put my face in the wind  
Oh, let the the saga begin  
Let the saga begin

Heading where brave have traveled  
What eyes have never seen  
Miklagard we're on our way  
Where few have ever been

Danger, toil and trouble  
Death may lie ahead  
But I'd rather die in glory  
Than fade away in bed

Free, so free  
The waves of the see  
The taste of the wind  
Urging us on and the saga begins

Free, so free  
In the storm you will see  
Holding on with a grin  
Odin with us let the saga begin

From Dorestadt in franconia  
The best swords that are made  
In gold they be weighted

Amber from Haithabu  
The gold of our shore  
We got plenty in store

We'll sell on eastern markets  
And silken cloth we'll buy  
Spices, glass and jewellery  
A pleasure to the eye

There is a fortune waiting  
For Those who choose this way  
A saga to be written  
To be told on future days
