Well you may call me evil  
Cause I stole Sif's hair  
But I went to Svartalfheim  
To settle the fate  
And you may claim  
Balder's death upon my soul  
But you know his light hurt my eyes  
And so his life I stole

What would Odin be  
Without Gunghir I gave  
And to Thor I presented  
Mjǫllnir as a fave  
What would Asgard be  
Without the wall I had you build  
And Sleipnir born of my guilt

Lord of Chaos  
Brother of wisdom  
The other side of good  
Lurking in your mind  
Lord of Chaos  
By evil kissed and  
Your other side  
The evil I will find

Thor, when Mjǫllnir was stolen by Thrym  
Was it not me who took you to him  
And I saw you in disguise as a wife as a thief  
Until mighty Mjǫllnir you could retrieve

And with Angraboda all right  
It was a hot and drunken night  
Never knew what she would bear  
But for my children I must care  
But how dare you bind me  
And not let death find me  
I swear I'll get you back on Ragnarǫk
