There is no God and Satan,  
Only an ancient evil who is inside us.  
Will we be together  
Like the snow on those beautiful mountains?  
Our spirit was always together.

Dreams from another dimension  
They are so weird all the time.  
I'm so cold my eyes are freezed.  
You are the only in my sight, so  
Keep me in your mind I won't be here forever.

Solitude  
Hug me!  
Emptiness  
Caress me!  
Coldness  
Heat me up!

You won't see me anymore  
When I'll become to ashes.  
Darkness  
Cover my soul  
Light  
Engaged.  
Where I don't exist.

Together.  
The Nothing and me  
Forever.
