Don't trip you know I'm always by your side
You'll be fine for the ride just be calm
Take a breath and don't cry
Oh my my
Look on the bright side

Rise up, now make your impact
Now get your bags packed
Think about your life
But girl don't you cry
Oh my my
Look on the bright side of life

Somebody told me everything's alright
That life's too short to be afraid
Just leading 'em to wonder what to say
Living should be giving it away
You're contemplating every single day
And learnin so we educate and be positive
It is what it is, ima set examples for the kids

I don't want to scare you, no I don't
It's time you be a role model so open up

Somebody told me everything's alright
That life's too short to be afraid
Just leading 'em to wonder what to say
Living should be giving it away
You're contemplating every single day
And learnin so we educate and be positive
It is what it is, ima set examples for the kids

I don't want to scare you, no I don't
It's time you be a role model so

Oh, no
I don't want to scare you, no I don't
It's time you be a role model so open up

Don't trip you know I'm always by your side
You'll be fine for the ride just be calm

Take a breath and don't cry
Oh my my
Look on the bright side

Rise up, now make your impact
Now get your bags packed
Think about your life
But girl don't you cry
Oh my my
Look on the bright side

Be kind, now keep a smile
Keep your head up
And try to find a friend or a child
And encourage their life
Look on the bright side

Rise up, now make your impact
Now get your bags packed
Think about your life
But girl don't you cry
Oh my my
Look on the bright side of life
