"On My Mind"

You got me screaming from the top of my lungs
When are you ever gonna give me some?
I hope you come around from time
And everything will be just fine fine fine, cause
I see that you got what I want
I see that you got what I need, yeah
So come on baby, come and get with me

It seema like yesterday
The words were on the tip of my tongue
But now I feel like a rat in a cage
Girl, you've got me sprung because

Love, love, love is on my mind

Well, you never even talk to me
I'm not a begger but I'm down on my knees
If I ever get the courage to do, yeah
Oh half of the things I wanted to do to you
I saw you walking away in a distance now, Whoa oh
yeah
Walking away in a distance now, whoah yeah

It seema like yesterday
The words were on the tip of my tongue
But now I feel like a rat in a cage
Girl, you've got me sprung because

Love, love alalove, it's on mind
Love, love, lolove, it's on my mind

Oh yeah, It's on my mind
