03 I know it's real.

I heard a myth about love, and I won't let go
I wanna love this way forever,
and let everyone know
I had a dream about you,
now it's coming true
You're next to me for worse or better,
so for always I do
An honest hand to have and hold,
and a promise that we won't let go

**And I know that it's real,
Baby it's you and me together
It's the way it should be

*And I know that it's real,
wanna be in your arms for ever
You're all that I need

Well I've got a wish for us,
and it's on every star
You keep me warm and close to you,
even when we're apart

I know the myth of love is where we belong
I never knew a love so pure,
so it cannot be wrong
An honest hand to have and hold,
and a promise that we won't let go

Repeat* and **

***You come to me, I come to you
You're everything and more
You're part of me, I'm a part of you
Never felt like this before
Repeat *** and ** (twice) and * and **
