Friday night on the town  
In my alcohol I drown  
Bar to bar and club to club  
All these girls are never enough  
Flashing sound, blaring sounds  
I passed out on the ground  
There's got to be more to life than this  
It's just waiting to be found

I'm looking for an answer, for attention  
For salvation from myself  
And I'm looking for Jesus and for Heaven  
For anyone, anyone that can help  
Anyone that can help

Thursday night, college crowd  
I; d listen but it's just too loud  
We get drunk and we drive home  
90 in a no passing zone  
We nearly died that night, I'm lucky to be alive  
I'm lucky to be alive
