"Black Weed"

In the deepest of seas
There is room for me
Black water rise
On the darkest of nights

Black weed for me
Exhale to be free
So get stoned and be
A black hole in the deepest of seas

In the blackest of weeds
There is room for me
Black water rise
On the darkest of nights

I speak of truth
There is no one but you
So we call your name
Black weed for us today

The blackest of weeds
There is room for me
Black water rise
On the darkest of nights

Black weed
For me
There is room
On a dark night

Black weed
For me
There is room
On a dark night
