You know this song's about you
Would say your name but what would that prove? Tore
my heart in two
I want to write a song about you and you'll wonder if it's
true
If I can't be trusted

Big choruses, so all the kids can sing along
We'll be laughing
Big choruses, so all my friends can sing along
We'll be laughing

You got us lost on purpose, so we could be alone
I could have danced all night
I've never met anyone like you and you wonder if it's
true
If I can't be trusted

Big choruses, so all the kids can sing along
We'll be laughing
Big choruses, so all my friends can sing along
We'll be laughing

Make sure I make everything that I think about you for
you
Make sure I make everything that I think about you for
you

Big choruses, so all the kids can sing along
We'll be laughing
Big choruses, so all my friends can sing along
We'll be laughing
Big choruses, so all my friends can sing along
We'll be laughing
