someone's gonna die  
gonna die tonight  
then the sun comes up  
the stars are all aligned, soon you will be mine  
whether you like it or not

[chorus x3]  
crashed  
i'm coming down  
don't catch me  
don't catch me  
crashed i'm coming down  
come watch me break apart and disintegrate

i've seen the other side  
i know what it feels like  
and i haven't slept since  
conscious couldn't last  
my hearts beating so fast  
someone tell me i'm gonna make it

[chorus x3]

when i'm gone  
your life goes on and on  
my body's dead
