you did it to me- so now i do it back-  
give me disease- give me a heart attack-  
all my plans are tentative- i'll die for you but i won't live

oo we can go anywhere- oo we can go in an  
ambulance-  
oo we can do anything- oo we can do it right now

you did it to me- so now i do it back- you did it to me- so  
now i do it back

fuck me free- i want my money back-  
love is so cheap- such a worthless trap-  
all my friends are fake as thieves- i dug for them in  
what we need

oo we can go anywhere- oo we can go in an  
ambulance-  
oo we can do anything- oo we can do it right now

can you come home- can you come right now-  
can you come home- can you come right now-

i'm not good enough- im not clean anymore-  
im damaged up- i want to come home- but-  
i'm not good enough- im not clean anymore-  
im damaged up- i want to come home

oo we can go anywhere- oo we can go in an  
ambulance-  
oo we can do anything- oo we can do it right now- right  
now
