"For Eternity"

Can't you see, how I feel it?
Nothing could change our destiny
Can't you see that's a meaning?
My love will last for eternity
x 2

No, what you'd think of me?
I'm not as I used to be
I want to go on
To hold my head high

Swear, swear
Above moon, the sky
Our love just the same
Come with me for eternity

Chorus x 2

My love will last for eternity
Eternity (repeat)

I know, now the time has come
To be before I'm done
To see a side of me
And swallow my pride

Swear, swear
Above moon, the sky
Our love just the same
Come with me and fly

Chorus x 3
