Hello sports fans the year is nineteen seventy-seven
the saints are down by four and the yankees just won
the pennant and there's no call no letter no signifying
action except the one that still stands today it's all in
your head now and it's all in your mind two is too much
to leave behind sensei that's just one term we never
needed and it's fair now that's fine we're not bitter so
where are you now better yet where were you then look
at this cycle it's building up it's all in your head now and
it's all in your mind or was this cancer too defined
