This one's goin out to you  
I hope you listen to it through  
Appreciate my words

Unbelievable at times  
You amaze me with your lines  
So now we're through

All i wanted was an answer  
Given to me straight and true  
All i got was broken english and you

In these paragraphs to you  
In these documents of truth  
Laid bare and exposed

The way you ruined you for you  
You take another then refuse  
Your face, your own

What is love  
Is it really worth the mess you'll find  
It's just inside  
Once in love - i'm never going back  
It's suicide with you
