Let it die

Sick of all the promises you've broken
You break them all
I get all the blame and you're the victim
You sell a lie

How long will you hold on
Why can't I let it go
Find a way to escape all the hate

If we only can get over
All the pain inside
All the wasted pride
If we only, if we only could just face the truth
Give up the fight and let it die

Tell me why you drown me with your silence
You make me sick
Tell me why I'm always craving for this
Tell me why

How long will you hold on
Why can't I let it go
Find a way to escape all the hate

If we only can get over
All the pain inside
All the wasted pride
If we only, if we only could just face the truth
Give up the fight and let it die

Let it die

I'm done with this
I'm done with this
I'm done with this

If we only can get over
All the tears we've cried
All the wasted pride

If we only, if we only could just face the truth
Give up the fight and let it die

If we only can get over
All the tears we've cried
All the wasted pride
If we only, if we only could just face the truth
Give up the fight and let it die

Let it die
Let it die
