She's got issues
And i've read 'em all
Got them laid out on the table
But i want her
More than ever
I don't care that
She's unstable

Stare at me
From your flame
Tell me things
I should know

Yeah i want her
Yeah i know it's wrong
But she's so irresistible
Stacked and crazy
A walking time bomb
I pretty sure shes
Not the one

With a question i stare
Answers float in the air
In a daze i am there
Hangin on
Like a dart from your flame
Only i am to blame
And i guess you could say
I was one

Did you think it would last?
