Your hands are shaking,  
Heart is racing,  
Hold your sightline,  
Watch your breathing,  
Keep your focus,  
You are ready,  
Make us victorious.

They are waiting,  
For you to take them,  
They will follow,  
If you lead them,  
Trust your instincts,  
Be the moment,  
Make us victorious.

(This is not the time to look back  
This is not the time to look ahead  
This is simply the time to be.

We stand in awe of those who have touched greatness  
Those who have refused to remain silent.  
We are today's voice.  
We are the authors of our own legacy.

Victory is not found at the end of the struggle.  
It is found in the first step you take towards it.)
